

PANAVISION LINK HDR

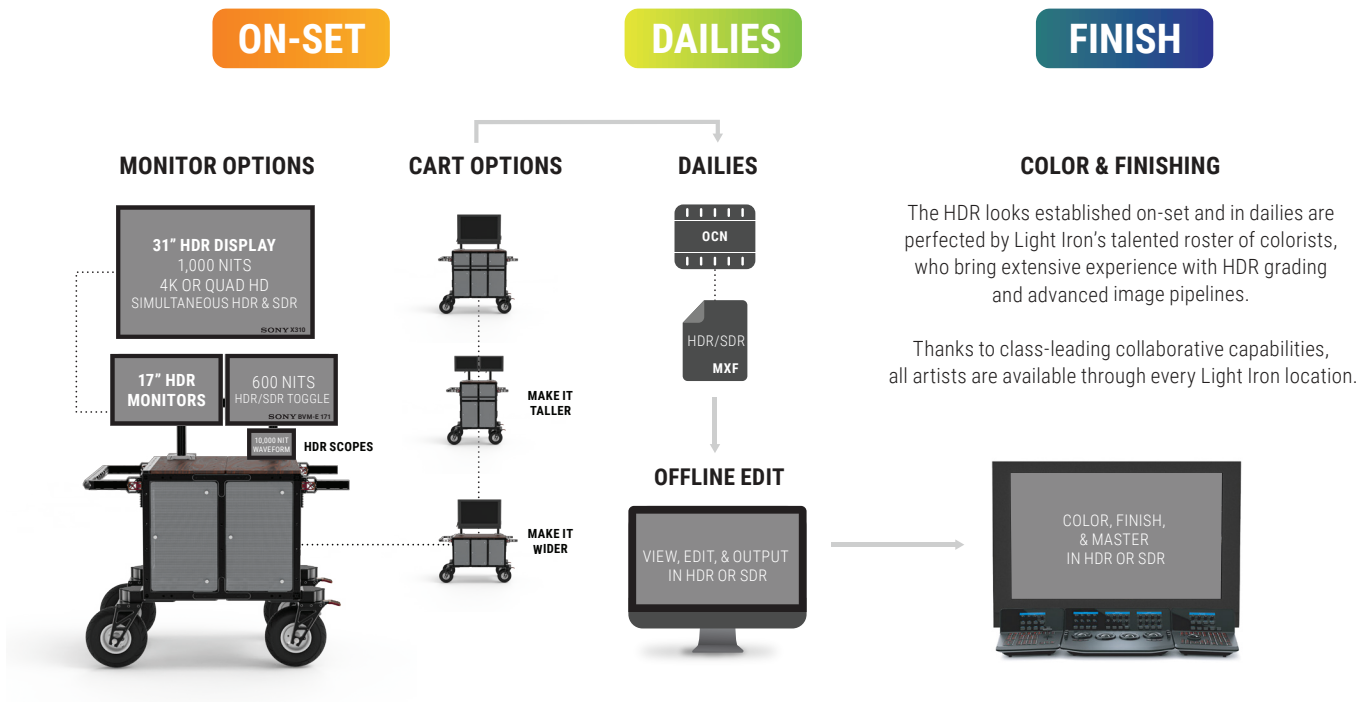

by  +  LIGHT IRON
A PANAVISION COMPANY

On-Set Dailies Finish

A modular workflow for your HDR imaging chain.

Creatives are producing for HDR-capable distribution platforms more than ever before as consumers seek premium viewing experiences. Panavision LINK HDR was developed to address the challenge of viewing HDR (high dynamic range) images throughout the production and post production process. Offering HDR and SDR viewing options in tandem, Panavision LINK HDR provides cinematographers, directors, editors and creative talent throughout the imaging chain the ability to view their image at the same quality delivered to consumers.

The same image at every stop.
